## Who can use Property Part Exchange?

Anyone that owns a bricks and mortar property can use **Quickmove Properties** part exchange service to secure their onward purchase, be that a new build, a permanent park home or a leisure home.

We can help to free up the capital in your existing property and secure your next move!

### DID YOU KNOW?

You won't need to vacate your existing property on completion day! In fact, we can grant you a license to occupy for two further weeks so you can move out at your leisure!

## Key Benefits to Property Part Exchange

- **Speed:** We can arrange the transfer of funds for a property sale to suit your deadlines, whether you need to complete immediately or wait until your new home is ready.
- **Certainty:** Once you have received a formal offer, the sale is secured (subject to survey). Quickmove is well-capitalised so cash funds are always instantly available.
- **Ease:** Part exchange takes away the worry and uncertainty of selling on the open market: no more arranging viewings, negotiations or worrying about sales falling through.
- **Flexibility:** We work to your timescales to enable a stress-free move into your new home.
- **Supportive:** A dedicated part exchange consultant will support you through every step of the process, taking stress and difficulty out of the situation.
- **Easy Budgeting:** You have the price certainty, both on your new home and the sale of your existing property.

# THE PROPERTY PART-EXCHANGE PROCESS

If we hadn't bought our park home using part exchange with Quickmove, we'd never have moved.
